SUMMARY

Bachelor of Science (Hons) in Information Systems candidate at the University of Rwanda, having completed all academic requirements and awaiting official graduation in October 2026.

Full-Stack Software Engineer with hands-on experience building scalable web and mobile applications using React, React Native, Node.js, Express.js, MongoDB, and PostgreSQL. Strong background in information management, data organization, technical documentation, reporting, systems analysis, and software development.

Through academic coursework and practical projects, I have developed knowledge in project management, project planning, systems analysis and design, information systems management, database management, and organizational workflows. I am proficient in Microsoft Office Suite (Excel, Word, and PowerPoint), project coordination, document management, stakeholder communication, and software engineering best practices. Passionate about leveraging ICT and project management skills to support organizational growth, digital transformation, and successful project delivery.
